

The NEW  
**PORTÉGÉ X30L-G**  
Business Premium Series

THE WORLD'S LIGHTEST<sup>^</sup>  
13.3" LAPTOP WITH 10TH GEN  
INTEL® CORE™ PROCESSOR

At just 870<sup>g</sup>, the Portégé X30L-G changes the game for ultralight laptops. The Portégé X30L-G is so light that you may actually forget it is in your bag. With full port capabilities, powered by the latest Intel® Core™ processors and tested to military standard, the Portégé X30L-G provides the performance and durability you need beyond the office setting.

Onyx Blue  
with Gold Accents

MIL-STD-810G strong

Multi-ports capabilities

SHARPS's IGZO display

Quick charge

IR camera for face authentication

## PRODUCT HIGHLIGHTS

### Designed for Business Mobility

Weighing a mere 870<sup>g</sup>, the Portégé X30L-G is the compact business laptop that balances portability and durability. Built with a careful selection of material such as Magnesium alloy with rib enforcements, the Portégé X30L-G adds an additional layer of protection. Portégé X30L-G is tested to military standard MIL-STD 810G and subjected to other rigorous and stringent tests such as H.A.L.T (High Accelerated Life Test), drop, spill and pressure tests to ensure the physical durability you need. With its strong build, the Portégé X30L-G lets you focus on your business and never to worry about the everyday bumps when on the move.

### Travel Light with Convenient Connectivity

While being light and compact, there's no compromise on the multi-port capabilities with the new Portégé X30L-G. With full-sized HDMI, USB 3.0 and USB Type-C® ports, mSD card slot, 3.5mm audio and Ethernet, you will never be short of options. Connect freely, simply plug in and enjoy fast local network speed wherever you are. The device's extensive range of essential ports allow you to travel light with no need for additional hubs.

### Built for Business Productivity

Powered by SHARP's IGZO display at 470 NITS, the Portégé X30L-G delivers a brighter screen with lower power consumption. Continue to work in or out of the office without straining your eyes with the brighter, anti-glare screen. Coupled with a long battery life of up to 14.5 hours and quick charge feature that allows you to recharge up to 4 hours from a 30 min charge, the Portégé X30L-G is truly built for business productivity and efficiency.

### Security at its Core

Built with security at its core, the Portégé X30L-G puts your mind at ease when it comes to business-critical data, especially for data-sensitive industries. The Portégé X30L-G comes with Dynabook's own proprietary BIOS, the only laptop brand in the industry with their own native BIOS. Beyond that, additional layers of security such as face biometric authentication and fingerprint trusted platform module 2.0 (TPM) are built into Portégé X30L-G to keep your business data secure.

<sup>^</sup>Based on 13" laptops with 10th generation Intel Core U Series processors as of December 27 2019, research conducted by Dynabook Inc.

<sup>†</sup>Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected.

<sup>‡</sup>Battery life rating based on MobileMark 2014 Office Productivity, powered by Intel® Core™ i7 vPro processor
