Feature 1:

AQUOS

日本のテクノロジー

The AQUOS goal is to offer a sense of authenticity.

TVs that go beyond sight and sound. Expressive picture quality that portrays textures, tastes and even smell.

Realistic imaging with life-like characteristics.

We embarked on a journey to offer not just images to our audiences, but a treat to lock them in a totally immersive sensory experience. Our dream is to conjure inspirational sensations of touching and being there yourself.

AQUOS Master Colourist

Hironori Shimoda

Vision for exceptional picture quality through unparalleled expertise that has been passed down for the last 20 years since the launch of the AQUOS brand.

Feature 2:

Panels Made In Japan ● 日本製のパネル

Sharp's Made in Japan panels are the result of years of research and development, using advanced manufacturing techniques to produce panels with exceptional picture quality. During the manufacturing process, the panels are subject to rigorous quality control measures to ensure that they meet the highest standards.

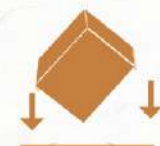

・ Only available in 70", 60", 42"

Feature 3: 7 Shields Protection Complete Safety Protection For Your Sharp TVs

1. **Vibration Shield**
Vibration resistance (Safety assurance in delivery).

2. **Drop Shield**
Drop test ensures packaging protection and integrity.

3. **Lightning Shield**
Lightning strikes resistance.

4. **Voltage Shield**
Voltage fluctuation resistance.

5. **High Temp. & Humidity Shield**
Withstand high temperature and humidity.

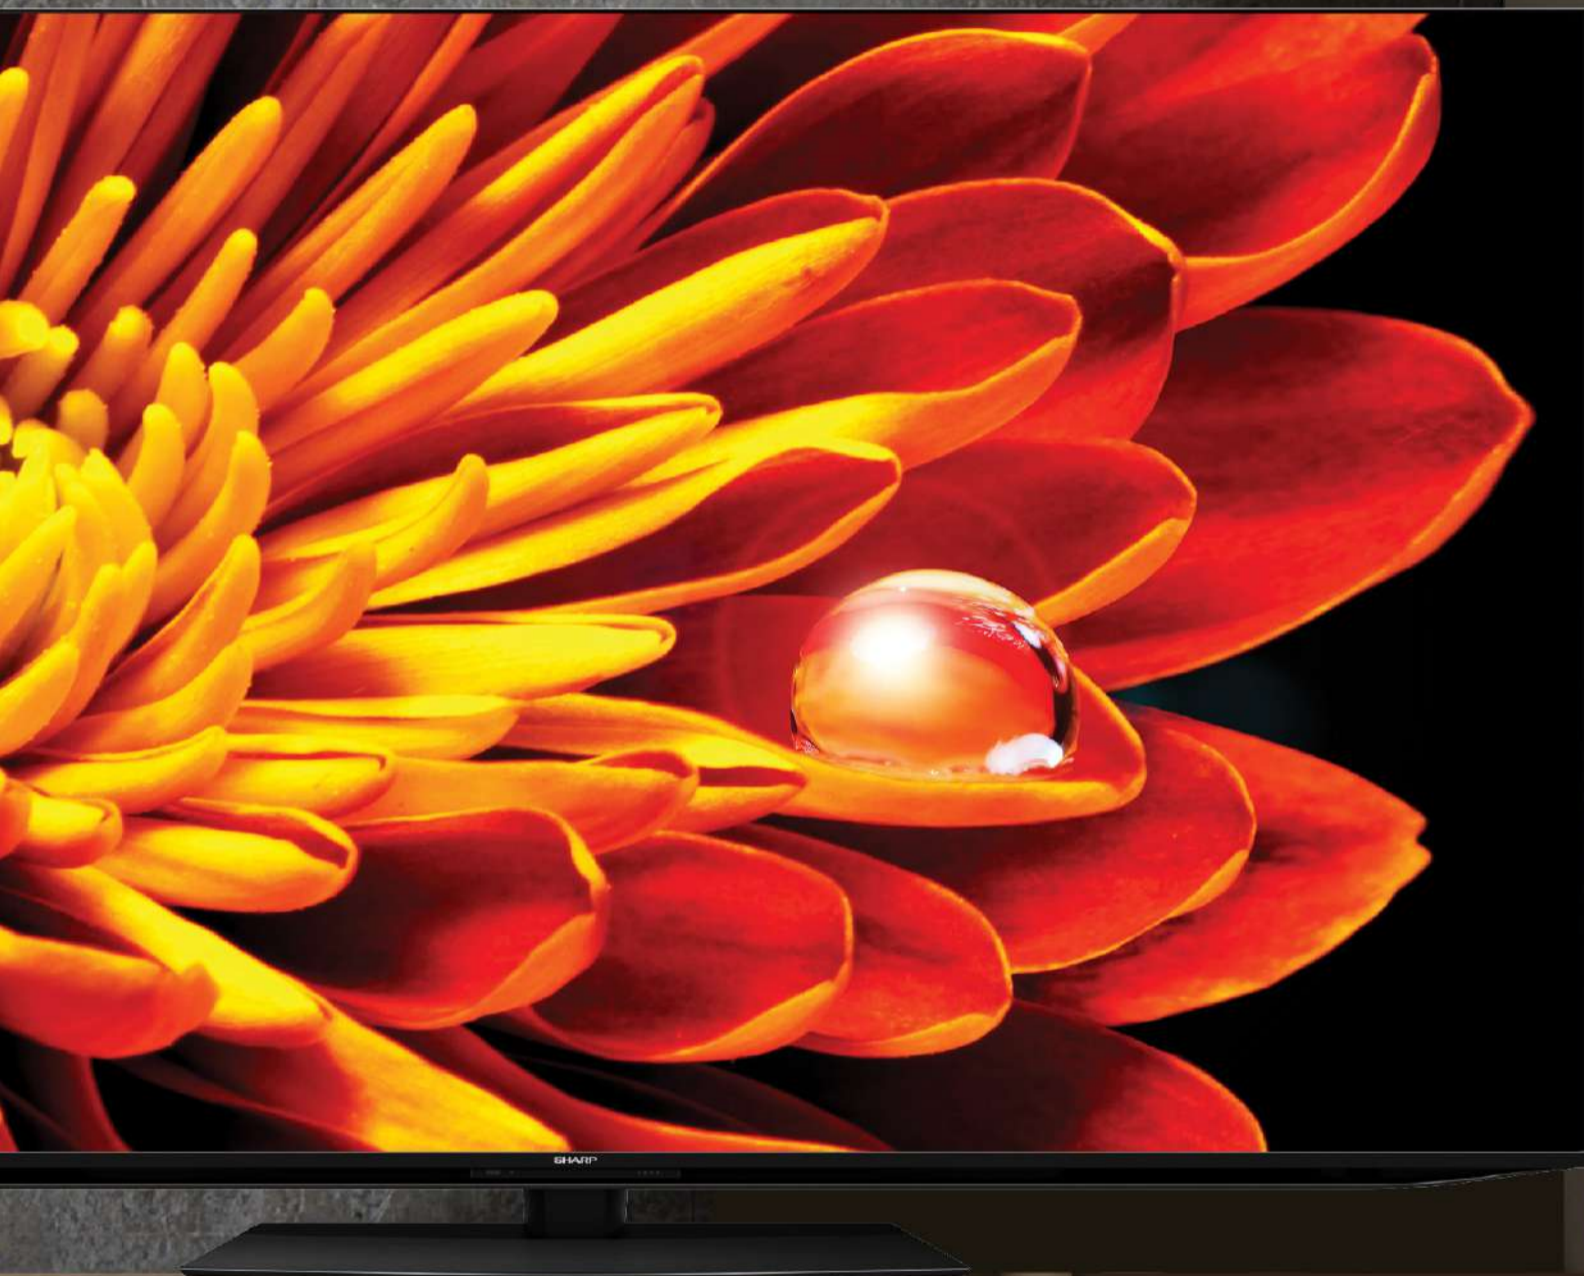

6. **Heavy Weight Shield**
Strong frame structure.

7. **Stability Shield**
High stability design.
